

Origami CRANE instructions

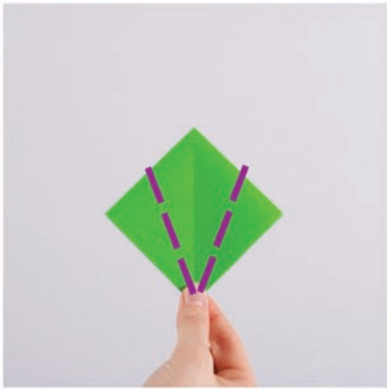

Start with a square piece of paper and fold it in half diagonally in both directions.

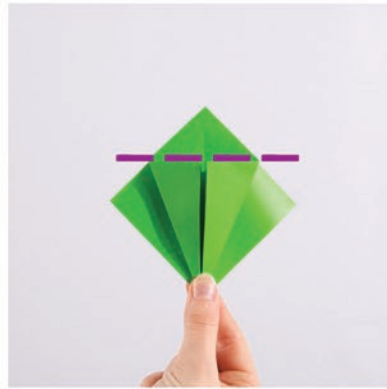

Turn around and fold in half horizontally in both directions.

Fold it in a diamond.

Fold it along the lines to centre.

Fold triangle along the lines to centre.

Unfold all three folds.

Lift the bottom corner upwards.

As you push the corner up, bring the edges in towards the middle and flatten them.

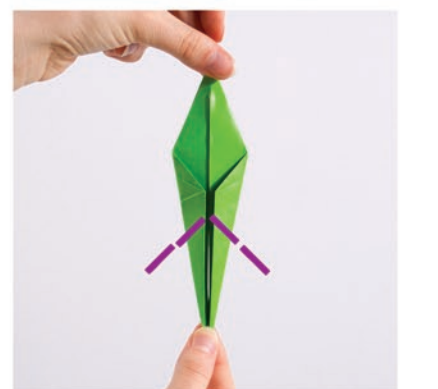

Now you completed the petal fold. Turn over the model and repeat the last 5 steps .

This is "bird base". Make two folds along the lines.

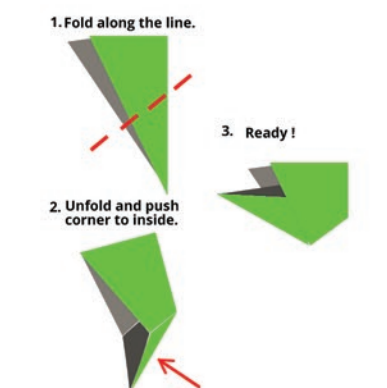

Turn over the model.

Repeat last step. Fold in half vertically and unfold .

Fold along the lines and apply an "inside reverse-fold" along the line.

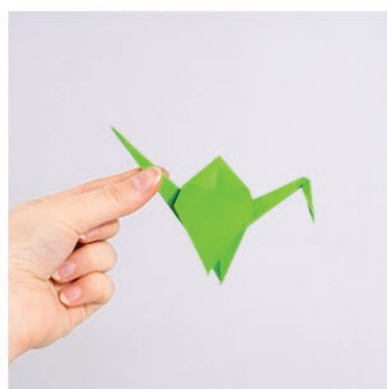

TIP how do: "inside reverse-fold"

Make a head by using again inside reverse-fold along the line.

Fold horizontally each wing.

Turn the model upside-down.

Now last detail: Pull two wings apart in an opposite direction and blow air inside so the body could be expanded.

THE END ! Your crane is ready !
